Upper County Bridge Replacement Project

Haverhill, MA

Drilled Shafts

Owner: MASS HIGHWAY DIVISION

Contractor: J.F. WHITE CONTRACTING Co.

Engineer: xxxxxxxx

The **Upper County Bridge**, which spans 825 feet across the Merrimack River, connects Haverhill and Bradford Massachusetts. J.F. White Contracting Company demolished the existing bridge, built a temporary trestle work platform and built a temporary utility bridge.

TREVIICOS performed the drilled shafts under polymer slurry.

Drilled Shafts	
Elements:	54
Diameter:	3 ft.
Max. depth:	92 ft.
